

# **Pushover Installation Guide for Smart Laundry**

Group Yellow

In order to receive notifications when washing cycles are finished, you need to have Pushover installed on your phone or activated on your desktop's browser. Pushover is a non-free app that you can use for receiving notifications from any service or server-side app using RESTful API.

Therefore you first need to create an account in their website below:

<https://pushover.net/>

As you complete the registration process, you will be assigned a user key as shown below. You will need this key, which is displayed on the user's home page, to receive notifications in latter steps.

## Your User Key

To receive notifications from a Pushover-powered [application](#), service, or website, just supply your user key:

ugxfokv225t [REDACTED]

To receive Pushover notifications from e-mails, send to:

9vp [REDACTED]@pomail.net

Next step to do, is downloading Pushover app on your phone. You can download Pushover for Android from [here](#) and for iOS from [here](#). After downloading the app, log into your account .

Now you need to register your device(s) in **Your Devices** list on your user panel's homepage. You can use it for free for 7 days but after that you need to purchase a license for further use.

## Your Devices [\(Add Phone, Tablet, or Desktop\)](#) [\(View Your Licenses\)](#)

Name	Status
 nexus6p	Enabled <a href="#">(Encrypted)</a>

To receive notifications for **Smart Laundry** you need to create an application/API token in the **Your Applications** section of the user panel at the bottom of the page.

## Your Applications [\(Create an Application/API Token\)](#)

No applications created yet. [Want to register a new one?](#)

Fill in the fields and then click on Create Application.

### Application Information

**Name:**

This name should be short (20 character maximum), such as "Nagios", "Adium", or "Netw". It will be displayed.

**Type:**

**Description:**

**URL:**

If this is a public app/plugin, you can include a URL to point to a homepage, Github repo,

**Icon:**  laundry\_machine.png

To customize your app's notifications, upload a 72x72 icon in PNG format (transparent background).

☒ By checking this box, you agree that you have read our [Terms of Service](#) and our [Privacy Policy](#).

[Create Application](#)

Now you will receive an API token for your app as below:

### API Token/Key [\(Edit or Delete Application\)](#)

To begin using our [API](#) to send notifications, use this application's API token:

atxc4gzw1is22fgs3gojxkebiugh3x

That's it. You will need both your User Key and the API Token for registration at Smart-Laundry.
